## DIGITAL HEALTH AGENCY

**REF: DHA/PROJ/VOL V/4**

**Date:** 23rd January 2026

Mr. Boniface Mungania
Safaricom PLC
Lead Consortium Member
**NAIROBI**

Dear *Boniface,*

## RE: REQUEST FOR SUPPORT FOR DATA LAKE REVIEW AND SYSTEM INTEGRATION ACTIVITIES

Reference is made to the subject and Contract No. MOH/SDMS/ADM/SPPP/005/2003-2024 for the Provision of Integrated Healthcare Information Technology System (IHITS) for Universal Health Care (UHC).

The Digital Health Agency is advancing Kenya's digital health transformation through the development and operationalization of a comprehensive Health Information System. Central to this transformation is the National Data Lake, a key component in consolidating health data from diverse sources and enabling informed decision-making across the health sector. Alongside the Data Lake, the National Analytics Platform provides real-time dashboards, predictive analytics, and actionable insights for health program managers, policymakers, and stakeholders at all levels of the health system.

The National Data Lake serves as the centralized repository for health data from various systems including KHIS, EMRs, eCHIS, e-claims and other digital health platforms. Together with the National Analytics Platform, these systems support evidence-based planning, resource allocation, and improved health outcomes. Equally critical to this ecosystem is the seamless integration of facility-level health management information systems to the national reporting platform (KHIS) to ensure timely, accurate, and complete data for decision-making.

A review of the Data Lake implementation progress is essential to assess the current state of the infrastructure, evaluate integration with source systems, identify gaps, and chart the roadmap for full operationalization. Additionally, supporting the integration of TaifaCare HMIS to KHIS is necessary to ensure that data flows seamlessly from health facilities to the national reporting system, strengthening routine health information reporting and analytics.

In this regard, we request your support for the following activities:

Review the Implementation of the Data Lake and National Analytics Dashboard scheduled for **2nd to 6th February 2026 in Naivasha.** This activity will bring together the Digital Health Agency and implementing partners to collectively assess progress, address technical and operational challenges, and align priorities for the next phase of implementation.

System Integration of TaifaCare HMIS to KHIS for Reporting scheduled for **9th to 13th February 2026 in Naivasha**. This activity will focus on configuring and testing the integration between TaifaCare HMIS and KHIS to enable automated data exchange and seamless reporting from facility-level systems to the national platform.

The detailed budget for both activities is as below.

| Week 1 (2nd- 6th February 2026) | | | | |
|---|---|---|---|---|
| Item | Pax | Amount | Days | Total |
| Conference Package | 10 | 4,000 | 5 | 200,000 |
| DSA reimbursement | 10 | 14,000 | 6 | 840,000 |
| Transport reimbursement | 10 | 3,000 | 2 | 60,000 |
| Sub Total | | | | 1,100,000 |

| Week 2 (9th- 13th February 2026) | | | | |
|---|---|---|---|---|
| Item | Pax | Amount | Days | Total |
| Conference Package | 10 | 4,000 | 5 | 200,000 |
| DSA reimbursement | 10 | 14,000 | 6 | 840,000 |
| Transport reimbursement | 10 | 3,000 | 2 | 60,000 |
| Sub Total | | | | 1,100,000 |

Thank you for your continued support.

Yours *Sincerely,*

ANTONY LENAIYARA
**CHIEF EXECUTIVE OFFICER/PROCURING ENTITY REPRESENTATIVE**
